

## WHAT WE DO

Alan Simpson and Norman Mineta

The Heart Mountain Wyoming Foundation and the Mineta-Simpson Institute are dedicated to following the examples set by Secretary Norman Mineta and Senator Alan Simpson, who first met as Boy Scouts behind the barbed wire at Heart Mountain in 1943, in reaching consensus and bridging partisan differences to create a better America. We believe the accurate teaching of history is essential to that effort, and we devote our efforts each day to making sure Americans know that history to make sure what happened during World War II at Heart Mountain never happens again.
